

FORMING THE FUTURE

SCHULER CONNECT

Hotline & remote support through smart glasses, smartphone or tablet

Schuler Connect with Smart Glasses: the user can send the view from his smart glasses via image or video transfer to the Schuler experts. Thanks to voice control, both hands remain free. As an effective aid, the Schuler expert can exchange voice and video information via augmented reality.

THE SCHULER CONNECT MODULE.

SOLVING PROBLEMS FASTER AND LOWERING COSTS WITH SMART GLASSES, SMARTPHONE OR TABLET.

The user can send the view from his smart glasses via image or video transfer to the Schuler experts.

COMMUNICATION VIA SMART DEVICES.

Press users create a network with Schuler experts through smart devices. Our experts virtually access the view of the camera. System data can be shared via image or video sequences in real time. This enables errors to be quickly localized and assessed. After getting the authorization from the customer, the experts can gain remote access to the

ADVANTAGES OF THE SCHULER CONNECT SERVICE MODULE

- Immediate problem analysis through real-time transfer of images and videos
- Simple and intuitive operation
- Extended service for hydraulic and mechanical systems and for operators
- System-independent support, also for third-party systems

The Schuler expert provides support based on the real-time image or video transfer by the user.

control system to solve the problem or introduce additional measures.

REDUCING DOWNTIMES AND COSTS.

The hotline and remote support supported by smart devices reduces machine downtimes and engineer visits resulting in considerable cost savings.

- Shorter response times and reduced travel costs
- Location-independent service of the system
- Maximum productivity due to reduced downtimes
- Involvement of additional experts as necessary, e.g. from the design or QA department
- Highest security, highest data protection standards

ABOUT THE SCHULER GROUP – WWW.SCHULERGROUP.COM

Schuler offers customized cutting-edge technology in all areas of forming – from the networked press to press shop planning. In addition to presses, our products include automation, dies, process know-how and service for the entire metalworking industry. Schuler’s Digital Suite brings together solutions for networking forming technology and is continuously being developed to further improve line productivity and availability. Our customers include automotive manufacturers and suppliers, as well as companies in the forging, household appliance and electrical industries. Presses from the Schuler Group mint coins for more than 180 countries. Founded in 1839 at our headquarters in Göppingen, Germany, Schuler has approx. 5,000 employees at production sites in Europe, China and the Americas, as well as service companies in more than 40 countries. The company is part of the international technology group ANDRITZ.
